Re: Waste Management of Canada Corporation  
Richmond Landfill Site  
Application for Amendment to Certificate of Approval (C of A) (Air & Noise) No. 8-4078-99-006  
Richmond Candlestick Flare Project

Dear Resident:

As part of a Landfill Gas Collection System Contingency Plan developed in June 2010, Waste Management of Canada Corporation has applied to the Ministry of the Environment to install a second, backup, utility flare at the Site. The flare will be of the open, candlestick type and will only operate when the existing enclosed flaring system is shut down for repairs or maintenance.

Should you have any questions or concerns or objections to the proposal, you must send written comments to:

Mr. Tesfaye Gebrezghi, P. Eng, Supervisor  
Environmental Assessment & Approvals Branch  
Ministry of the Environment  
2 St. Clair Avenue, Floor 12A  
Toronto, ON  
M4V 1L5

Written comments must be received within 15 days of the notice. Should you have any questions or comments regarding the application before expressing these comments to the Ministry, please do not hesitate to contact Mr. Reid Cleland or Mr. Randy Harris at the Richmond Landfill site.

Yours very truly,  
Waste Management of Canada Corporation

Randy Harris  
Site Manager
